DOMA is aware of the importance of website accessibility and we are committed to providing a web experience that meets the needs of as many visitors to our website as possible. To that end, we follow the World Wide Web Consortium Web Content Accessibility Guidelines, which provide guidance on how to make websites more accessible for people with disabilities. We recognize that website accessibility is constantly evolving, so if you would like to request website accessibility-related assistance, report website accessibility problems, or request any information in accessible alternative formats, please contact us using the contact page or phone number listed below.

DOMA is committed to complying with the Americans with Disabilities Act when providing services to the public. This may include the provision of appropriate auxiliary aids and services at no cost to individuals with disabilities. Auxiliary aids and services may include qualified sign language interpreters or providing materials in an accessible format, where providing such aids or services would not fundamentally change the nature of the services or result in an undue burden. If you would like to request accessibility assistance, please contact us using the contact page or phone number listed below.
